GMT Use of Cisco
Switches on the DeltaV
Area Control Network -
Smart network switch for
the DeltaV digital
automation system. 13
January 2009. Emerson
Process Management has
unveiled a line of smart
network switches
specifically designed to
"plug and play"
within a DeltaV digital
system network. Smart
network switch for the
DeltaV digital automation
system - The DeltaV Smart
Switches have a
pre-configured setup to
enable storm control, loop
prevention and yet can be
managed from the Smart
Switch Command Center
(in v12.3.1) or the Network
Device Command Center
(introduced in v13.3). The
DeltaV Smart Switches
provide access through its
serial port (CLI access) for
troubleshooting and log
files access, and

configuration changes are
limited to what ... Emerson
