methodological approach of Marxist historiography that focuses on human societies and their development over time, claiming that they follow a number of observable tendencies.

Mon, 14 Jan 2019 21:13:00 GMT

Historical materialism - Wikipedia -

Design research was originally constituted as primarily research into the process of design, developing from work in design methods, but the concept has been expanded to include research embedded within the process of design, including work concerned with the context of designing and research-based design practice.

Mon, 14 Jan 2019 16:20:00 GMT

Design research - Wikipedia -

Control space should be within the design space, it is an upper and lower limit for raw material or a process within which parameter and material are regularly controlled which assures quality of product.

Quality by design approach: Regulatory need -
